

Aspen Test Engineering's Short Wire Fixture

(U.S. Patent No. 7,616,019 B2)

“The **Alternative Solution** to Long Wire and Wireless Fixtures” for Your Teradyne TS12X and GR228X

Our creative design has emerged from years of “hands on experience” working with the physical, mechanical, and electrical elements of fixture design.

Short Wire Features

- ✓ Improves signal integrity for typical digital, ISP and Boundary Scan applications
- ✓ Eliminates all “probe field” flex forces
- ✓ Is ECO friendly
- ✓ Utilizes X Probe™ Technology from QA Technology Company, Inc. and Proprietary Aspen Test Design
- ✓ Avoids custom fabrication costs of wireless fixtures
- ✓ Lowers fixture profile and reduces fixture weight
- ✓ Saves storage space and shipping costs

Call **David Kufra** at **678.797.5566** or email sales@aspentest.com today to discuss your existing or future programming and fixture needs.
