

Aspen Test Engineering Introduces

Aspen Test Engineering's Short Wire Fixture

(pat. pend. #11/ 430,784)

“The **Alternative Solution** to long wire and wireless fixtures” for Your Teradyne TS12X and GR228X Test

Our creative design has emerged from years of “hands on experience” working with the physical, mechanical and electrical elements of fixture design.

Short Wire Fixture

Short Wire Features

- ▲ Improves signal integrity for typical digital, ISP and BScan applications
- ▲ Eliminates all “probe field” flex forces
- ▲ Is ECO friendly
- ▲ Utilizes X Probe Technology™ from QA Technology Company, Inc. and Proprietary Aspen Test Design
- ▲ Avoids custom fabrication costs of wireless fixtures
- ▲ Lowers fixture profile and reduces fixture weight
- ▲ Saves storage space and shipping costs

Contact sales@aspentest.com or call **303.665.2324** for a timely response to your fixture needs.
